M. R. PARRISH; Latron. SATURDAY, - - August 25, 1866

Turn Our!-The citizens of Hardeman county are earnestly requested to meet together in this place on the first Monday in next month for the purpose of taking action upon the proceedings of the late Philadel phia Convention. We ask our good citizens to come forward, regardless of past differences, and stand by the old constitution as it was, for it is the only plank upon which we can ride the coming storm, and the only weapon with which can be beat down the monstrous heresy of negro superiority. Every county in each State has been called on to investigate the declaration of principles as put forth by the Convention and to say whether they endorse them or not. There is no doubt but what the law-abiding, conservative men of the country can avert the great danger that is threatening our prosperity and nationality as a people, if they will put their shoulders to the wheel and work in concert, The hopelessness of the radical cause in the entire South, the thirty thousand conservative majority of Kentucky, as recently given for Duvall, are fore-runners of what is to come-a sure indication of the sound thrashing the whole pack of Unionhating, negro-loving radicals will get in the duescourse of time. Again we say to the citizens of this staunch old county-this home of so many illustrious warriors and feet statesmen-come to the meeting; you who went for "seperation and representation;" you who voted against secession but followed the sixty thousand majority because you thought it was your duty as good citizens to do so; you who clong to the old Union because you thought it right; you who proved your devotion to principle on the bloody fields of battle; you who remained at home as sad spectators of the fierce fratricidal strife that left you pennyless and powerless; come, and in concert, speak the truth, and tell the cunning tricksters and lying hypocrites of the Stevens Sumner-Brownlow-Devil crew that their macinations must cease. Many persons have been led to believe that the country was hopelessly in the hands of a great radical majority; this is an error-a belief without foundation. True, the great majority of Congressmen are radical; but let it be borne steadily in mind that they were elevated to the positions which they so effectually disgrace when the Northern States were straining every sinew and resorting to line of policy, which has not changed since knowing that every conservative man in this American side of the Rio Grande. the cessation of hostilities, does not reflect portion of the District will heartily rejoice Gold, 10 A. O! that executive PROCLAMATION BY THE PRESIis just as reasonable to suppose that w. j. axe! smith, represents this county correctly, as it is to entertain the belief that Thad. Stevens reflects the sentiments of the majority of the people of Pennsylvania. The fact of the case is simply this, the majority of the men in office are radical, while the great made ceived. Please inform the Committee of jority of those out of office are conservative, and all that is needed to prove this to ourselves and to those who dread to see it tested, is a well directed effort-just such an one as afford them all aid in their power, and sinis now being made, and of which the Phila- cerely wish them the greatest success. delphia Convention is a most convincing precursor. Our people cannot feel too deep an interest in what is transpiring around us, and should avail themselves of every opportunity to move forward step by step to the privileges and rights from which they have been debarred by oppressive measures which | the ballot-box. - Nash. Press and Times. were brought about by tyranical men clothed with "brief authority." Let the meeting be well attended.

OFF WITH THEIR HEADS .- President Johnson is playing sad havoc among the mushrooms of the radical, ranting, reeking, rumaging, reckless renegade sneaks that have crept into office by whining "union and reconstruction," but who have never ceased to ply their slanderous tongues and work into the hands of the Stevens-Sumner party. Let the good work go on, for there is a long list of official heads that should feel the keen edge of the executioner's axe. It's wholesome for conservatism, and conservatism is wholesome for the country.

Colored suffrage would give Tennessee two additional Representatives in the Federal Congress, and we want more power in the national council.-Nash. Press and Times. That's the truth for once; and you've

owned up like a "little man." No wonder you are in favor of negro suffrage; you see that radical power is drooping, and do not national council." Have patience, dear Times | Stokes and put it through! it will be a long time before your wants are

DRAD DOG IN THE PIT.-The Nashville Press and Times says "the prospects [for the radical cause] in Arkansas are gloomy." Yes, and it's the sickest thing you ever saw in this State, too. It is a dead dog in the pit so far as Kentucky is concerned, and doomed to everlasting damnation even in the eel-skinning State of Massachusetts.
